

Chair Massage

Chair massage is a common means to treat back and/or neck pain, joint stiffness and other conditions. The use of complementary therapies such as chair massage, has been beneficial in conjunction with conventional medical care.

By appointment only with Phillip Hinds, Licensed Massage Therapist.

Appointments are 20 minutes in duration and demand for services determines the frequency in which you may schedule. Only active patients of the clinic are eligible for this service.

For questions or to schedule appointments, contact Curtis Howard at (760) 656-8414
